

Stejně - paisley

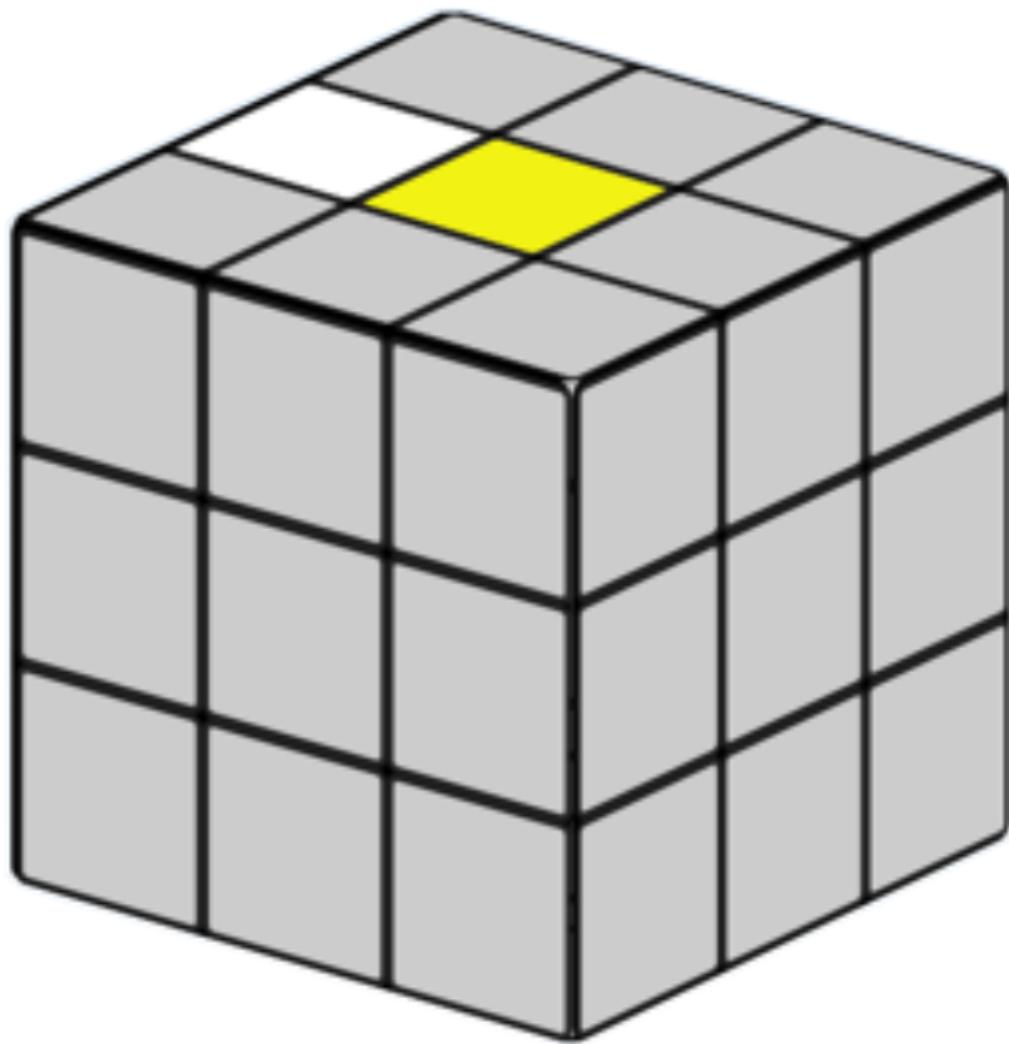

If the white faces you, you can just move it to the top of the page. If the black faces you, you can just move it to the bottom of the page.

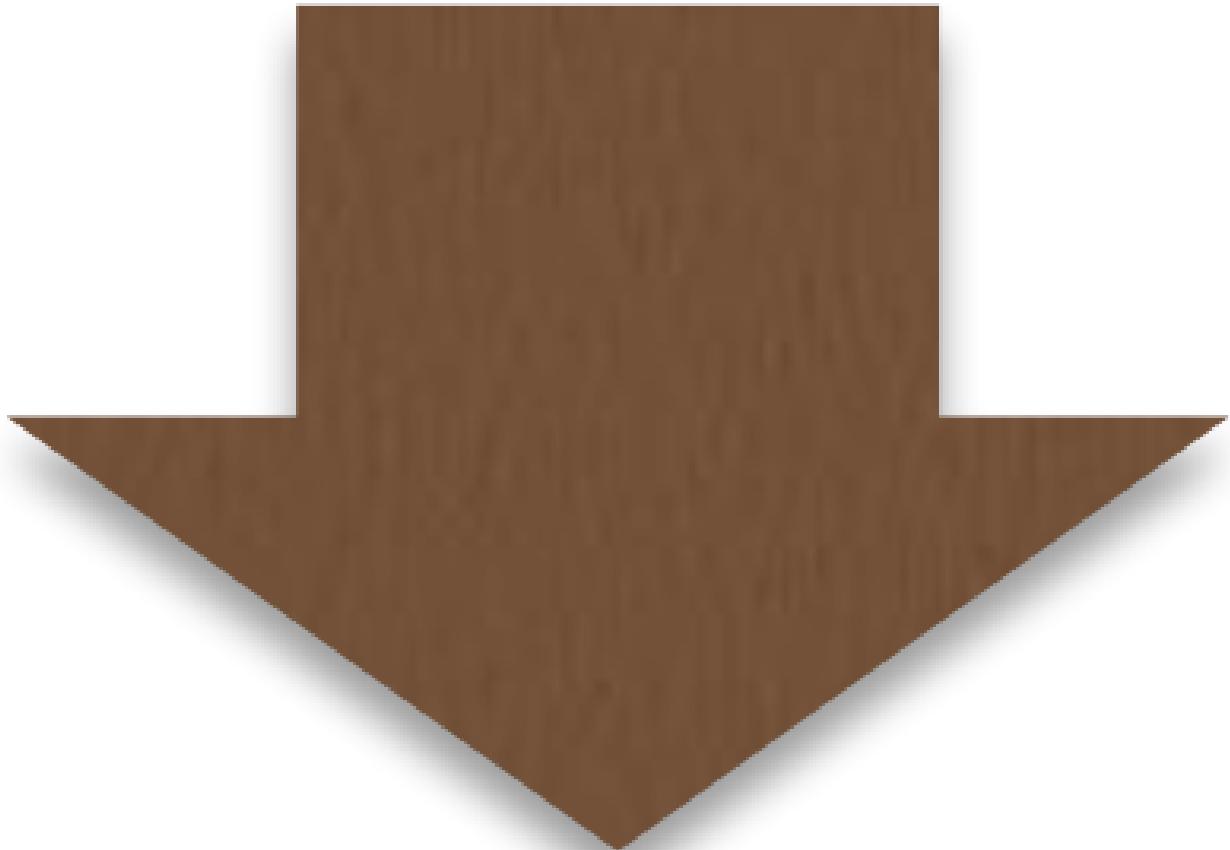

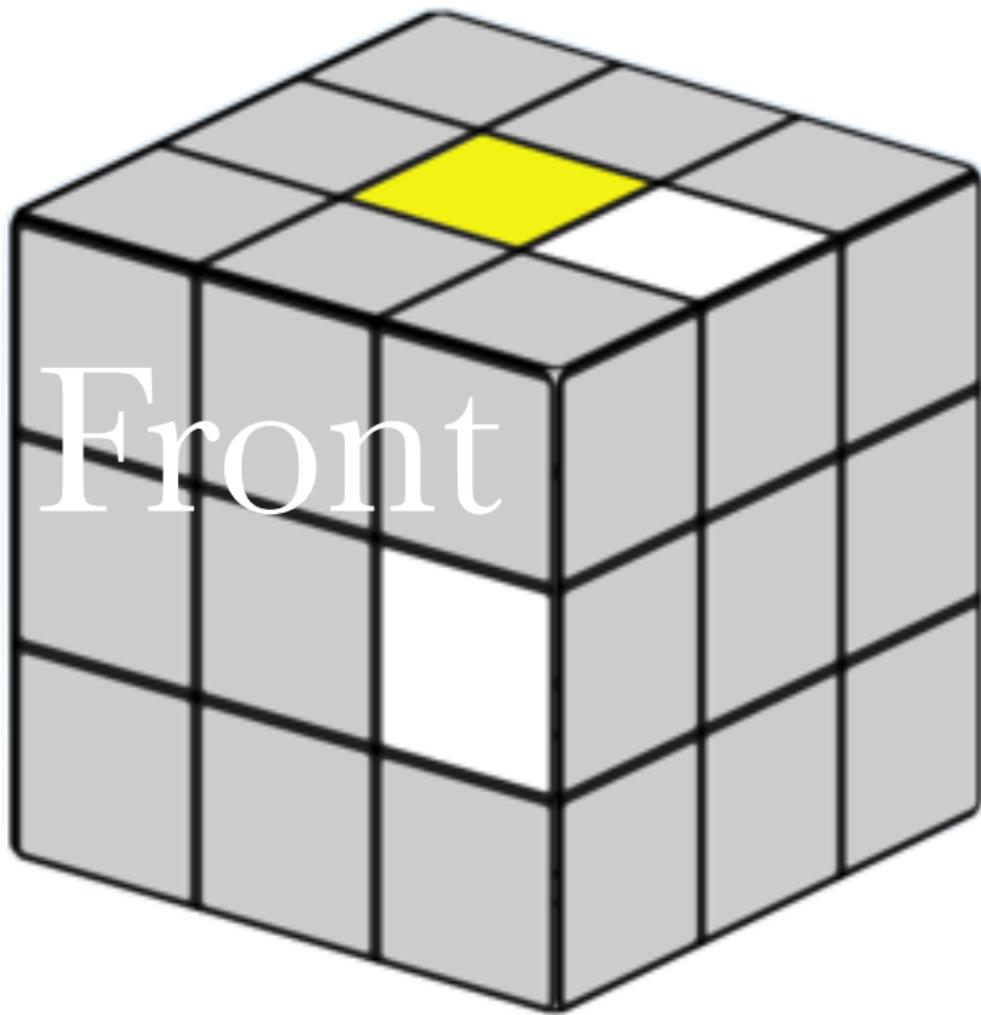

But what if the petal
position is already taken?

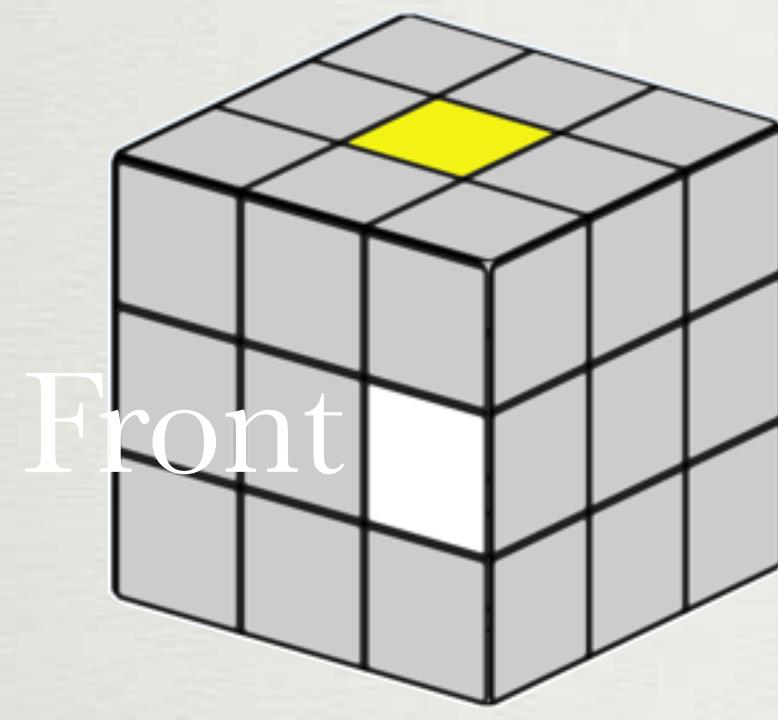

Keep doing U until the
petal position is available

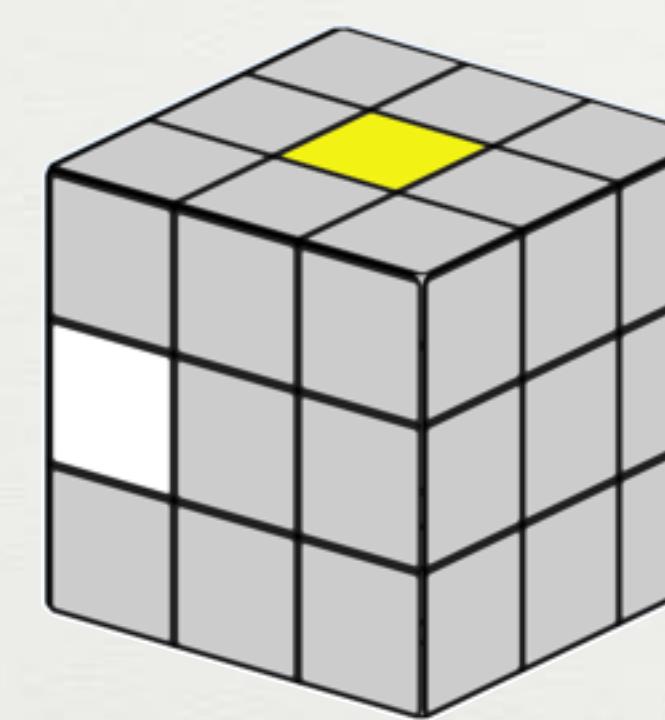

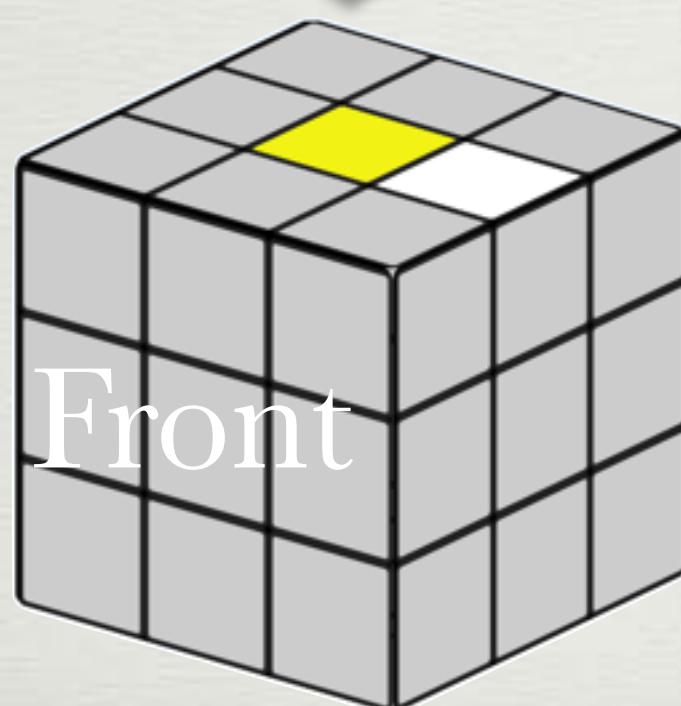

Front

Step 1 - Daisy

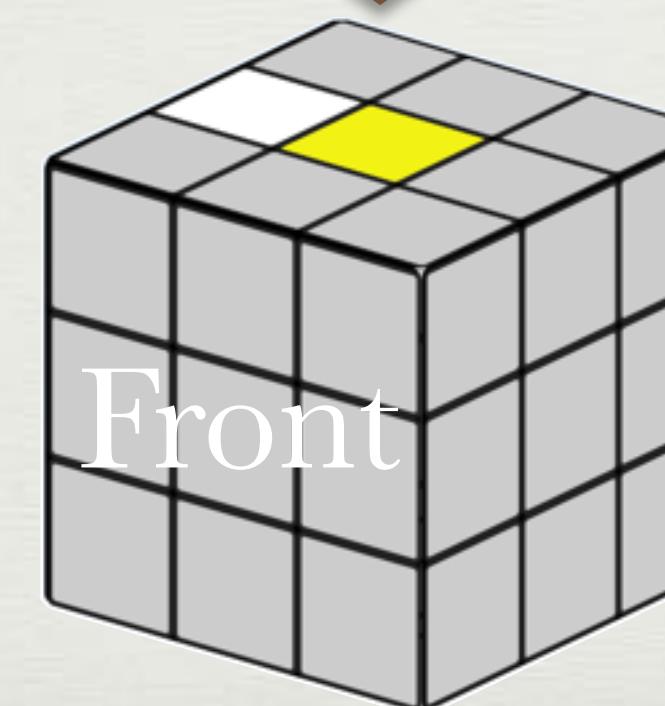

- If the white petal faces you, you can just use R or L' to move it to the top

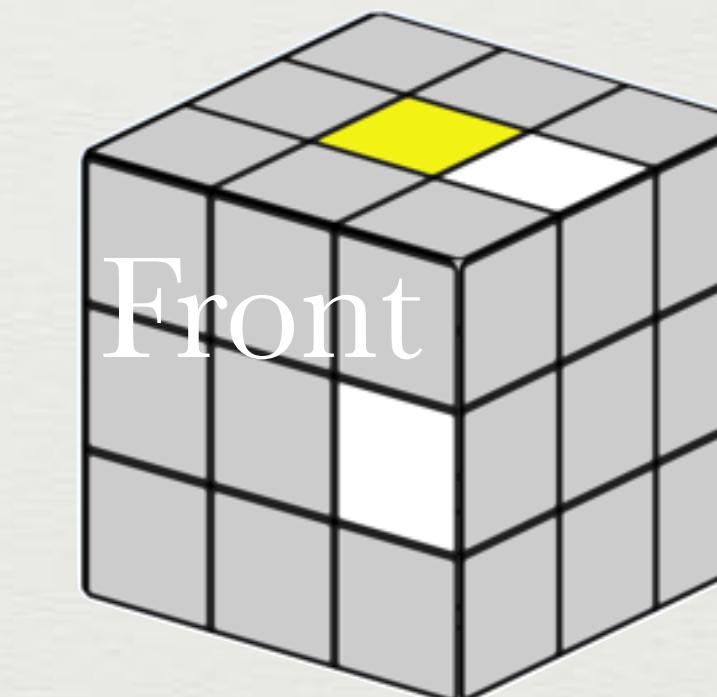

R

L'

But what if the petal position is already taken?

Keep doing U until the petal position is available

Step 1 - Daisy
