

Stejně - Daisys

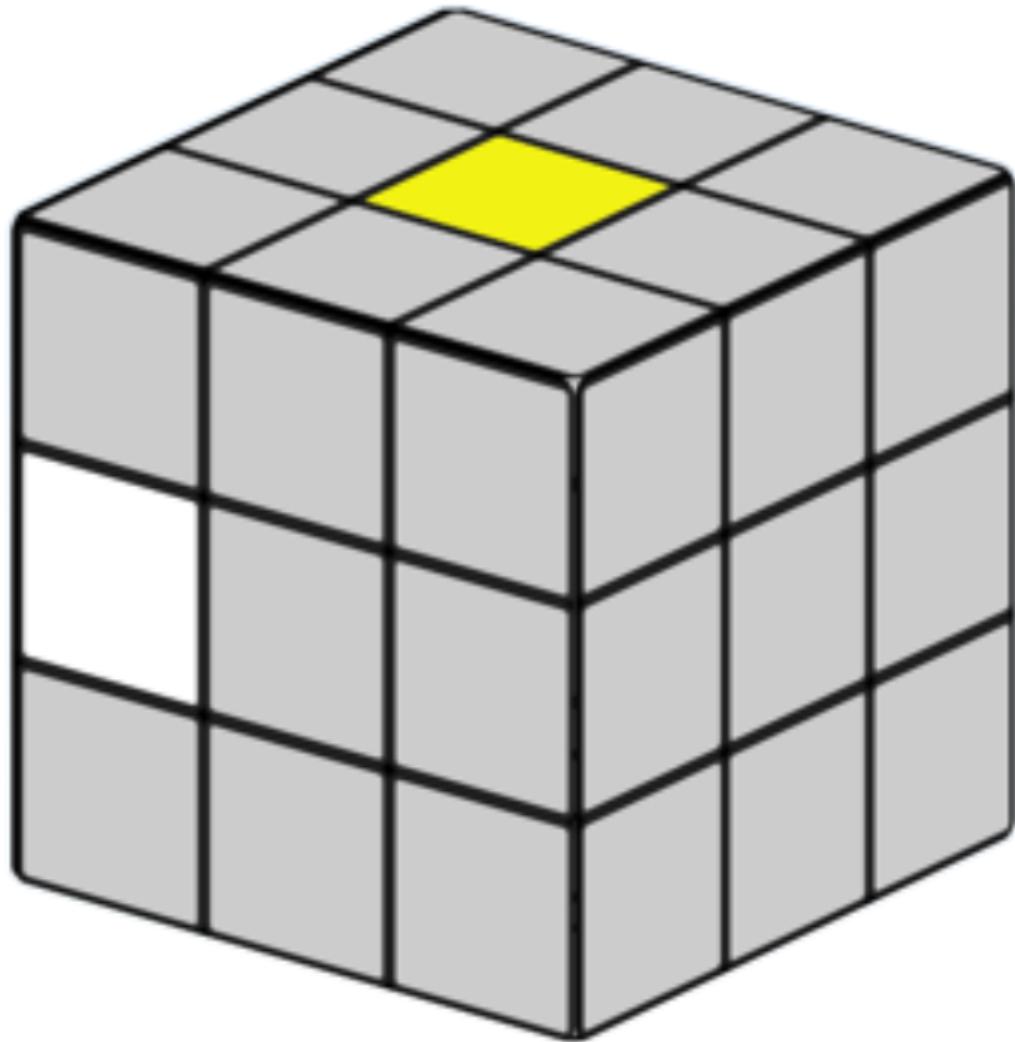

If the white petals you, you can just see it now, or I'll see you, the white faces.

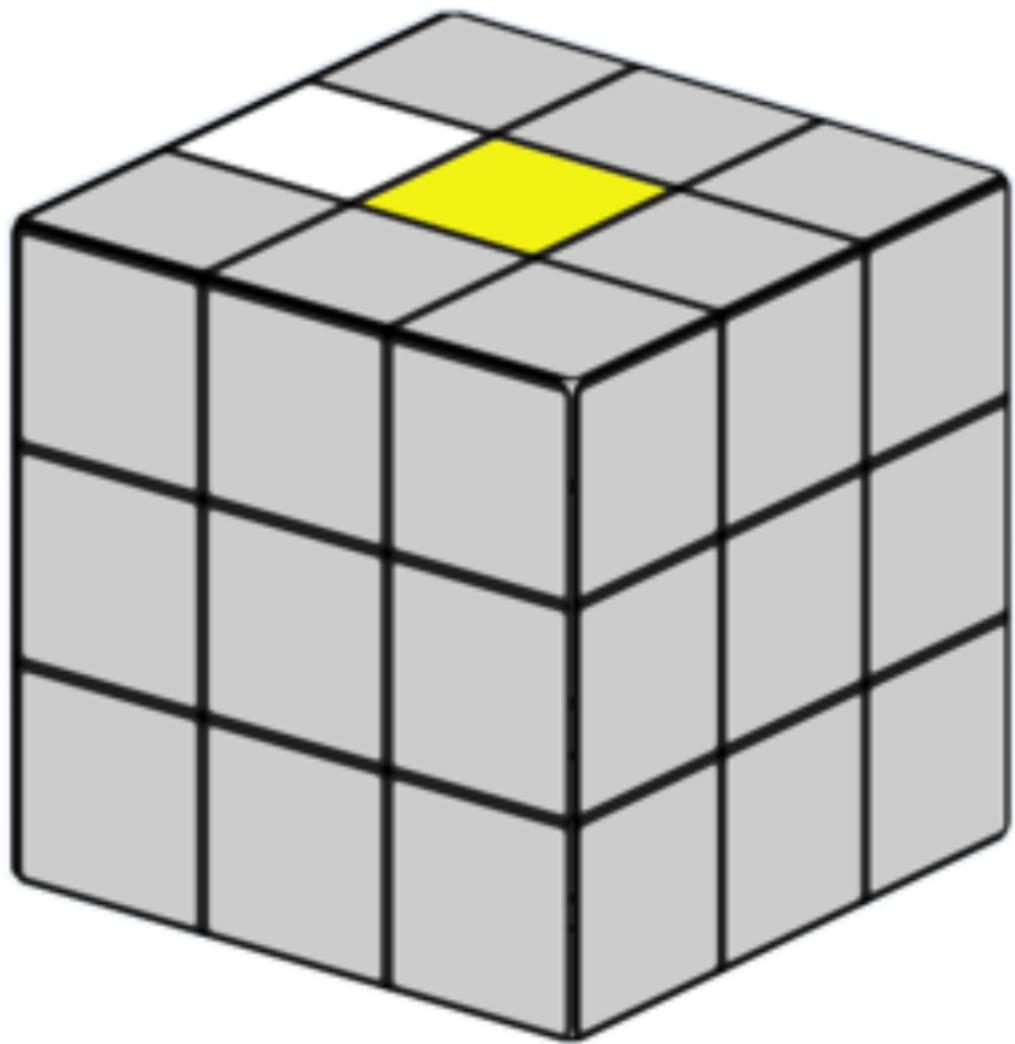

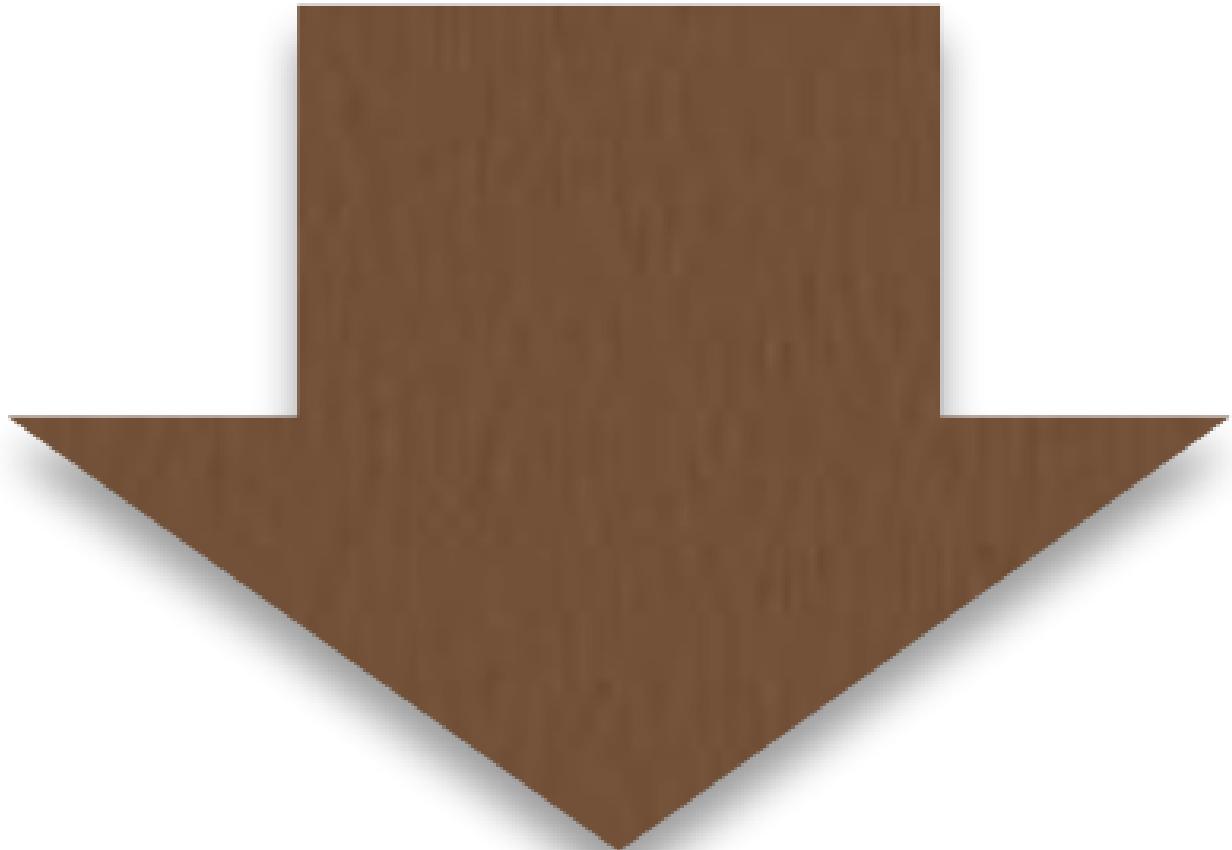

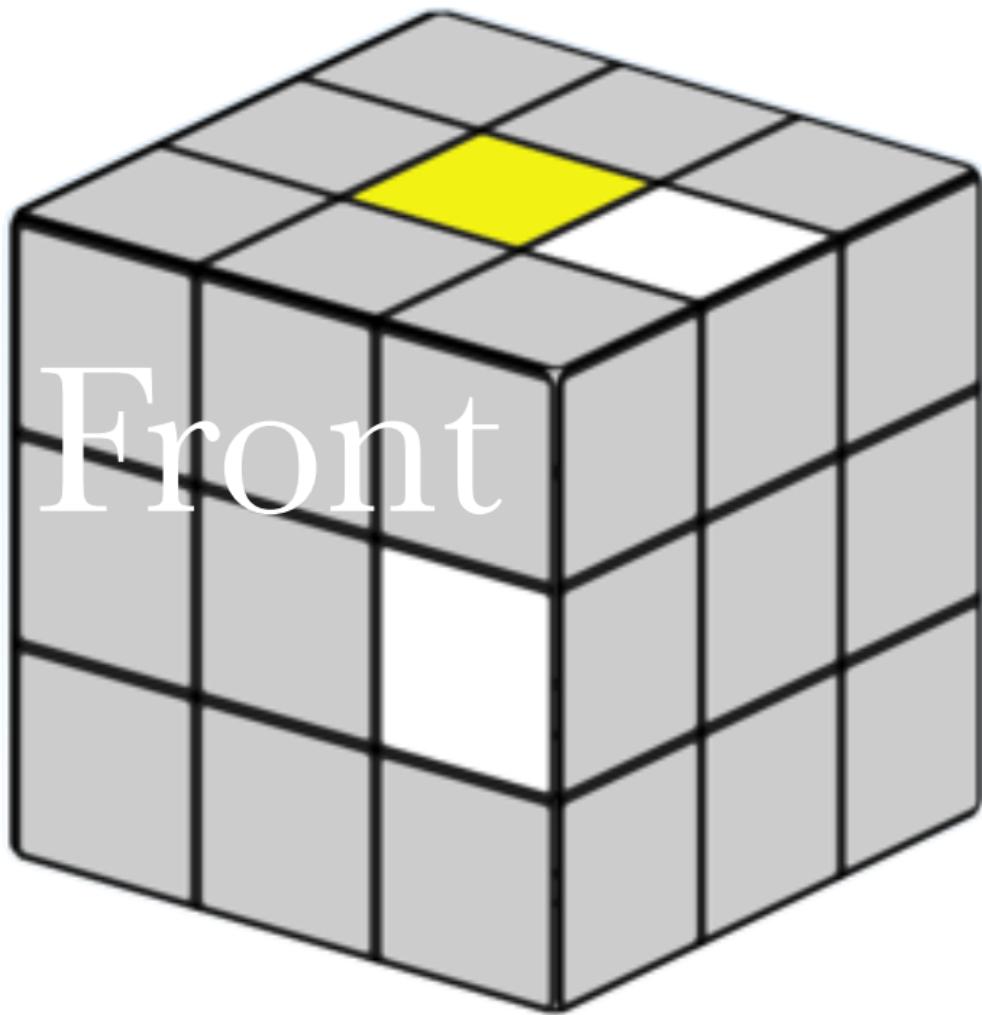

But what if the petal  
position is already taken?

Keep doing U until the  
petal position is available

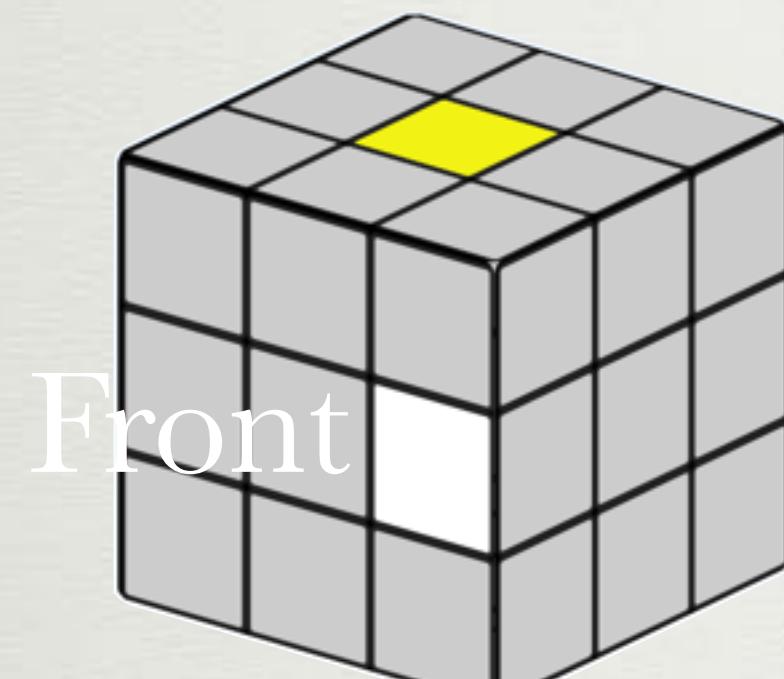

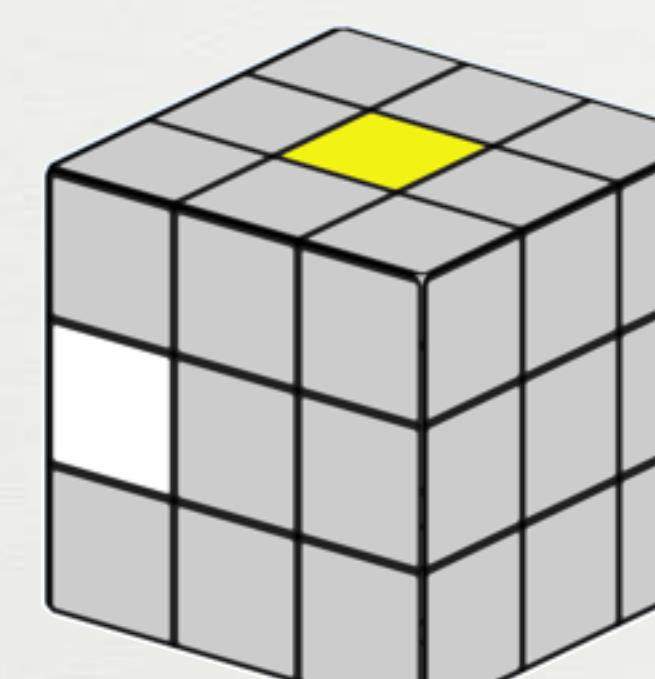

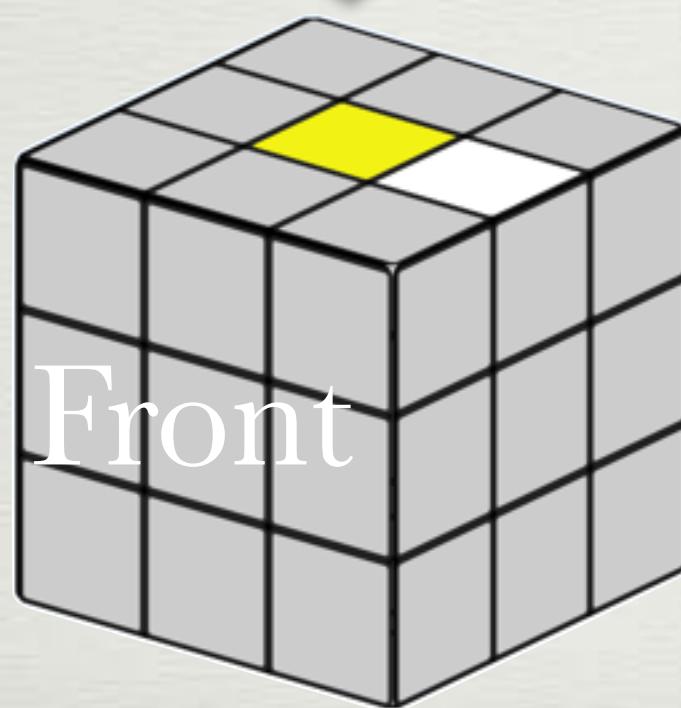

# Step 1 - Daisy

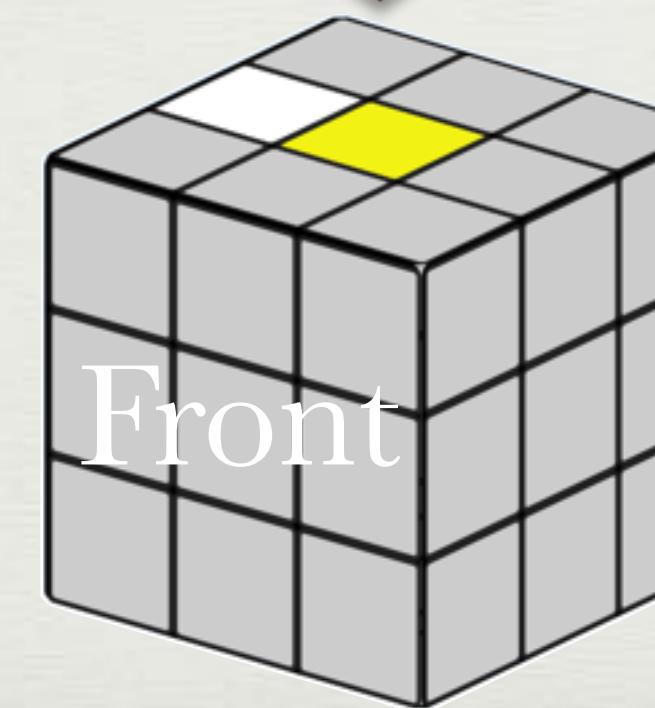

- If the white petal faces you, you can just use R or L' to move it to the top

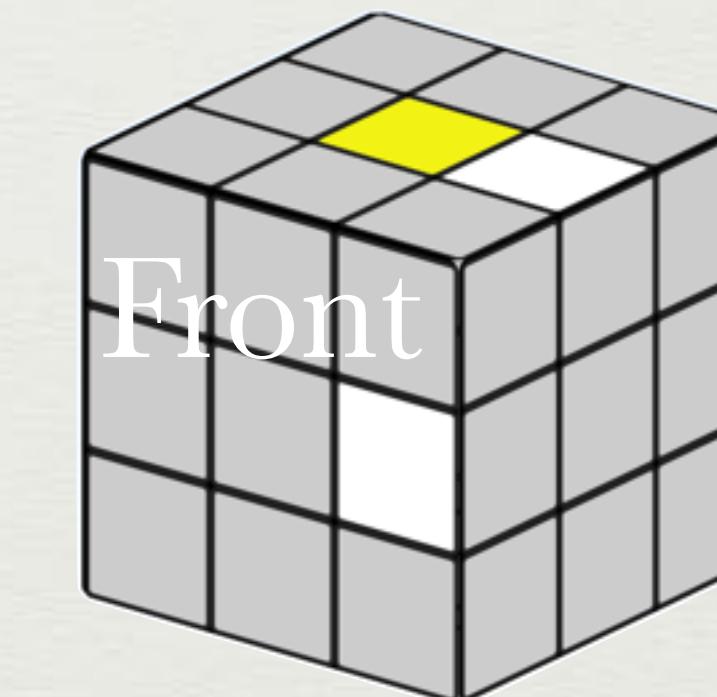

**R**

**L'**

But what if the petal position is already taken?

Keep doing U until the petal position is available

# Step 1 - Daisy

- Some trickier situations...
